This three-part course takes into account recent changes and provides a base for the CXC examination.

Objectives of the study are: (i) to review current knowledge on vulnerability, past trends in climate, and impacts of climate variability and change on agriculture sector, and (ii) to explore technical and policy alternatives in order to cope with and adapt to impacts of climate variability and change more effectively. The study identified what the potential impacts are, considered what interventions are appropriate, and if and where they should occur. The scope of the study focused on broader policy directions and investment priorities in relation to climate change adaptation. The first two chapters of this book present overall background on the agriculture sector and vulnerability context. Chapter 2 specifically presents vulnerability of agro-ecosystems and food production systems in both temporal and spatial dimensions. Chapter 3 elaborates on the nature of climate variability and expected future changes in climate. The past

This report supports the development of the new Caribbean Development Bank's agricultural policy and strategy by identifying key trends in agriculture in Borrowing Member Countries, as well as opportunities for investment to promote growth and ensure sustainability. It also identifies new value chain opportunities, including the tourism industry, the growing yachting sector, and domestic cassava value chains. Today, countries face major challenges as they strive to improve the competitiveness of their agricultural sector. However, there is great potential for strengthening market linkages and helping farmers, fishers, and agri-food businesses catch up with current technologies. Through the promotion of inclusive and sustainable agricultural development, the bank can contribute to overcoming major socio-economic and environmental challenges in the region, including food and nutrition insecurity and youth unemployment. The study concludes that the bank can play an instrumental role in supporting countries in meeting their Sustainable Development Goal targets - particularly with regard to socio-economic and environmental challenges - including poverty (SDG 1) food and nutrition insecurity (SDG 2), obesity (SDG 3), youth unemployment (SDG 8), resilient infrastructure (SDG 9), gender inequality (SDG 5), sustainable use of natural resources, and climate change (SDG 13).

Rain forests are rapidly being cleared in the humid tropics to keep pace with food demands, economic needs, and population growth. Without proper management, these forests and other natural resources will be seriously depleted within the next 50 years. Sustainable Agriculture and the Environment in the Humid Tropics provides critically needed direction for developing strategies that both mitigate land degradation, deforestation, and biological resource losses and help the economic status of tropical countries through promotion of sustainable agricultural practices. The book includes A practical discussion of 12 major land use options for boosting

food production and enhancing local economies while protecting the natural resource base. Recommendations for developing technologies needed for sustainable agriculture. A strategy for changing policies that discourage conserving and managing natural resources and biodiversity. Detailed reports on agriculture and deforestation in seven tropical countries.

Agricultural Science for CSEC(R) Examinations is one of a series of texts written especially for students studying for the CSEC examinations in science subjects. The examination for Agricultural Science can be taken as a Single Award or as a Double Award, and this book covers the material for both.

Discover Principles of Business as a real-world subject through thought-provoking case studies and prepare effectively for the CSEC May/June 2019 examinations. -Develop knowledge systematically with each section focusing on a specific aspect of the syllabus, and clear syllabus references throughout. -Revise for the exam with unit summaries, in-chapter challenges, and MCQs. -Increase confidence with exam-type questions at the end of each unit and a full section dedicated to exam preparation and the School Based Assessment. -Ensure all three examined profile dimensions are developed with contextualised structured response questions.
