Unfortunately, due to a DMCA (copyright) complaint from the publisher of Griffiths's textbook Introduction to Quantum Mechanics, I must remove my solutions to the problems. Although my solutions were actually my own work and were not copied from any published source, they probably do duplicate to some extent the solutions in the solutions manual, so I can understand why the publisher lodged the complaint.

These are my own solutions to the problems in Introduction to Quantum Mechanics, 2nd ed. I have made every effort to insure that they are clear and correct, but errors are bound to occur, and for this I apologize in advance. I would like to thank the many people who pointed out mistakes in the solution manual for the first edition,
