For over 40 years, Warship has been the leading annual resource on the design, development, and deployment of the world's combat ships. Featuring a broad range of articles from a select panel of distinguished international contributors, this latest volume combines original research, new book reviews, warship notes, an image gallery, and much more, maintaining the impressive standards of scholarship and research with which Warship has become synonymous. In the 2019 edition of this celebrated title, articles include Hans Lengerer's exploration of the genesis of the Six-Six Fleet, Michele Cosentino's look at Project 1030, Italy's attempt to create a torpedo-armed attack and ballistic missile submarines, and A D Baker III's drawing feature on the USS Lebanon. Detailed and accurate information is the keynote of all the articles, which are fully supported by plans, data tables and stunning photographs.

By far the biggest change to The UK Pesticide Guide in 2020 is the loss of a number of active ingredients that have been fundamental to many crop protection programmes. The final use-up of chlorothalonil formulations; propiconazole, fenpropimorph, chloridazon and diquat occurs in 2020 but there are also a few exciting new additions. Aclonifen is a new residual herbicide for use in potatoes that already has a number of EAMUs for use in minor crops. BASF is launching its new triazole, mefentrifluconazole, which promises to restore full triazole activity, at least initially. On the insecticide front the new active ingredient from Corteva agriscience, sulfoxaflor, is now listed for use in Cucurbitae and ornamentals under full protection for control of aphids and whitefly.

An engaging guide to the innovative tractor models that achieved legendary status. Accompanied by superb colour photography of all the tractors.

A brief biography emphasizing the career of the leading lady of golf.

In 2007, the Department of Defense (DOD) paid contractors \$158.3 billion for a range of services, including contract specialists. To better understand the use of contractors in this role, GAO initiated a case study, under the authority of the Comptroller General, at the Army Contracting Agency's (ACA) Contracting Center of Excellence (CCE). GAO determined (1) the extent to which and why CCE relies on contractor contract specialists, (2) how risks of contractor use are mitigated, (3) how the cost of the contractors compares to that for CCE's government employees, and (4) whether the contract vehicles were appropriate. GAO reviewed a random

sample of contract files to understand the contractors' duties and responsibilities, compared compensation costs, and reviewed documents from the General Services Administration (GSA), under whose contracts CCE ordered the contract specialists.

Beskriver prøveflyvning, herunder teori og beregninger i f.m. afprøvning af flyets forskellige funktioner og flyveegenskaber.

A fascinating review of the record-breaking experimental aircraft of the future currently being built and tested by the U.S. Air Force and NASA. The X-Planes, drawing on recently declassified information, is the first comprehensive book on the experimental aircraft. 335 photos and 30 scale drawings.
