One of John Wideman's most ambitious and celebrated works, the lyrical masterpiece and PEN/Faulkner winner inspired by the 1985 police bombing of the West Philadelphia row house owned by black liberation group Move. In 1985, police bombed a West Philadelphia row house owned by the Afrocentric cult known as Move, killing eleven people and starting a fire that destroyed sixty other houses. At the heart of Philadelphia Fire is Cudjoe, a writer and exile who returns to his old neighborhood after spending a decade fleeing from his past, and who becomes obsessed with the search for a lone survivor of the event: a young boy seen running from the flames. Award-winning author John Edgar Wideman brings these events and their repercussions to shocking life in this seminal novel. "Reminiscent of Ralph Ellison's *Invisible Man*" (Time) and Norman Mailer's *The Executioner's Song*, Philadelphia Fire is a masterful, culturally significant work that takes on a major historical event and takes us on a brutally honest journey through the despair and horror of life in urban America.

Stranded in the Sahara desert, Dirk Pitt and his friends uncover the truth about the fate of 1930s aviator Kitty Mannoock and the secret behind Lincoln's assassination. Reissue.

Austin, Texas, at the beginning of the twenty-first century, is experiencing one of the most dynamic periods in its history. Wedged between homogenizing growth and a long tradition of rebellious nonconformity, many Austinites feel that they are in the midst of a battle for the city's soul. From this

struggle, a movement has emerged as a form of resistance to the rapid urban transformation brought about in recent years: "Keep Austin Weird" originated in 2000 as a grassroots expression of place attachment and anti-commercialization. Its popularity has led to its use as a rallying cry for local business, as a rhetorical tool by city governance, and now as the unofficial civic motto for a city experiencing rapid growth and transformation. By using "Keep Austin Weird" as a central focus, Joshua Long explores the links between sense of place, consumption patterns, sustainable development, and urban politics in Austin. Research on this phenomenon considers the strong influence of the "Creative Class" thesis on Smart Growth strategies, gentrification, income inequality, and social polarization made popular by the works of Richard Florida. This study is highly applicable to several emerging "Creative Cities," but holds special significance for the city considered the greatest creative success story, Austin.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Written by renowned modelling expert and TV visual effects designer Mat Irvine, the Model Builders' Manual provides a practical guide for both novice and experienced model builders, showing how to obtain professional results, with a focus on plastic model kits. In addition to the practicalities of building models, this introduction to modelling covers the history of how the modern kit industry developed, how a model kit is designed, the range of tools and paints available to build models, the origins and variety of the various scales, collecting models and model clubs. Practical coverage includes details of basic building techniques, painting and spraying, decals and dioramas, plus techniques associated with predominantly plastic-based hobby kits such as white metal, photo-etch and resin components.
