The Advanced Planner
and Optimiser (APO) is

the software from SAP

dedicated to supply

chain management. This

book addresses the

question of how to

implement APO in a

company. It is written

from a long years'

experience in

implementation projects

Process

Bookmark File

PDF Sap Scm

and provides project managers and team members with the necessary know-how for a successful implementation project.

The focus is on introducing modeling approaches and explaining the structure and interdependencies of systems, modules and entities of APO.

Another concern is the

Process

Bookmark File

PDF Sap Scm

integration with the R/3 system(s), both technically and from a process point of view.

Since APO projects differ significantly from other SAP projects, some key issues and common mistakes concerning project management are covered.
