It is March 1941, and Britain's wartime fortunes are at their nadir. But events are still following the course of history. The Doctor is therefore alarmed to discover that the Nazis are building a superweapon that could end the war overnight. '

A collection of three new novellas featuring space archaeologist, Bernice Summerfield. In the course of a career spent digging up ancient things, Professor Bernice Summerfield has had more than one brush with the oldest and most widely - dispersed race of undead in the universe - vampires. Is she cursed? Or does everybody have to put up with this?

Doctor Who stories are many things: thrilling adventures, historical dramas, tales of love and war and jelly babies. They're also science fiction – but how much of the science is actually real, and how much is really fiction? The Scientific Secrets of Doctor Who is a mind-bending blend of story and science that will help you see Doctor Who in a whole new light, weaving together a series of all-new adventures, featuring every incarnation of the Doctor. With commentary that explores the possibilities of time travel, life on other planets, artificial intelligence, parallel universes and more, Simon Guerrier and Dr Marek Kukula show how Doctor Who uses science to inform its unique style of storytelling – and just how close it has often come to predicting future scientific discoveries. This book is your chance to be the Doctor's companion and explore what's out there. It will make you laugh, and think, and see the world around you differently. Because anything could be out there. And going out there is the only way to learn what it is.

64 new traditional Holmes adventures in three simultaneously published volumes In 2018, MX Publishing presented Parts XI and XII of this acclaimed and ongoing series, Some Untold Cases. Now that theme is revisited with 64 new Sherlock Holmes adventures that explore those many tantalizing references to some of Holmes's other cases, as mentioned in The Canon. "Somewhere in the vaults of the bank of Cox and Co., at Charing Cross, there is a travel-worn and battered tin dispatch box with my name, John H. Watson, M.D., Late Indian Army, painted upon the lid. It is crammed with papers, nearly all of which are records of cases to illustrate the curious problems which Mr. Sherlock Holmes had at various times to examine" - Dr. John H. Watson So wrote Dr. Watson in "The Problem of Thor Bridge" - and ever since, Sherlockians have been seeking to know more about these tales from the legendary tin dispatch box. While Watson's original Literary Agent only edited the pitifully few sixty stories that make up the original Canon, there have since been literally thousands of traditional adventures about the true Sherlock Holmes - and yet there will never be enough! Throughout the original Holmes Canon, there were hints and teases of other intriguing cases - The Giant Rat of Sumatra . . . The Abernethy Tragedy . . . The Manor House Case. Watson mentions well over one-hundred of these, which have collectively come to be known as The Untold Cases. Now, once again MX Publishing brings us sixty-four of these adventures in three simultaneously published volumes, with all royalties going to support the Stepping Stones School at Undershaw, one of Sir Arthur Conan Doyle's former homes. Join us as we return to Baker Street and discover more authentic adventures of Sherlock Holmes, described by the estimable Dr. Watson as "the best and wisest . . . whom I have ever known." Each volume contains forwards by Otto Penzler, Roger Johnson, Stepping Stones School, Steve Emecz, and David Marcum, as well as stories by the following contributors: Will Murray (2 stories), Tim Gambrell (2 stories), Craig Janacek, I.A. Watson, Jane Rubino, Paul Hiscock, Hugh Ashton, Mike Chinn, Shane Simmons, Dacre Stoker and Leverett Butts, David Marcum, Matthew J. Elliott, Paul D. Gilbert, Tracy J. Revels, Margaret Walsh, Arthur Hall, Barry Clay, Steven Philip Jones, Jan van Koningsveld, and Marcia Wilson, and a poem by John Linwood Grant

The Doomsday Manuscript is the key to finding the Lost Tomb of Rablev. Legend says that if the tomb is ever opened, the world will end. With the party to celebrate the opening of the Braxiatel Collection and the new year still underway, Benny finds herself drawn into a web of mystery and intrigue that starts with death and gets more serious at every stage. Can she find the second half of the Doomsday Manuscript before it falls into the wrong hands? Can she trust her partner in the quest? What will she find on the planet Kasagra, the location of the Lost Tomb of Rablev? And can she squeeze in another drink at Joseppi's—the favorite haunt of black marketeers, spies, counterfeiters, Fifth Axis officers, and desperate archaeologists—before the end of the world?

All is not well on Gallifrey. The House of Lungbarrow, where the Doctor left his family 673 years ago, has disappeared. In the seventh Doctor's final New Adventure, he faces a threat that could uncover the greatest secret of them all.

Past or future, which path do you choose? Past, present and future collide as the Thirteenth Doctor meets classic Doctor Who companion Ace – in the first epic novel from the woman who played her, Sophie Aldred. Once, a girl called Ace travelled the universe with the Doctor – until, in the wake of a terrible tragedy they parted company. Decades later, she is known as Dorothy McShane, the reclusive millionaire philanthropist who heads global organisation A Charitable Earth. And Dorothy is haunted by terrible nightmares, vivid dreams that begin just as scores of young runaways are vanishing from the dark alleyways of London. Could the disappearances be linked to sightings of sinister creatures lurking in the city shadows? Why has an alien satellite entered a secret orbit around the Moon? Investigating the satellite with Ryan, Graham and Yaz, the Doctor is thrown together with Ace once more. Together they must unravel a malevolent plot that will cost thousands of lives. But can the Doctor atone for her past incarnation's behaviour – and how much must Ace sacrifice to win victory not only for herself, but for the Earth?
