Receptions (Chapter 2) - The Cambridge Companion to Shelley

Book description. The Cambridge Companion to Frankenstein consists of sixteen original essays on Mary Shelley's novel by leading scholars, providing an invaluable introduction to Frankenstein and its various critical contexts. Theoretically informed but accessibly written, this volume relates Frankenstein to various social, literary, scientific and historical contexts, and outlines how critical theories such as ecocriticism, posthumanism, and queer theory generate new and important ...

This bar-code number lets you verify that you're getting exactly the right version or edition of a book. The 13-digit and 10-digit formats both work.

Amazon.com: The Cambridge Companion to Shelley (Cambridge ...

It became possible to write him off as a man ' wandering around Italy in a big shirt trying to get laid ' , in the words of a BBC comedy that picked up on the early cult of Shelley. 4 Palgrave's Golden Treasury, the major anthology of the age, canonized and deodorized Shelley's poetry, offering specimens of ' verse ' seemingly unsullied by political interests. Thus began the entirely false division between Shelley the poet, who didn't care about politics, and Shelley the activist, who ...

Percy Bysshe Shelley (1792–1822) was an extraordinary poet, playwright and essayist, revolutionary both in his ideas and in his artistic theory and practice. This 2006 collection of original essays by an international group of specialists is a comprehensive survey of the life, works and times of this radical Romantic writer. Three sections cover Shelley's life and posthumous reception; the basics of his poetry, prose and drama; and his immersion in the currents of philosophical and political thinking and practice. As well as providing a wide-ranging look at the state of existing scholarship, the Companion develops and enriches our understanding of Shelley. Significant new contributions include fresh assessments of Shelley's narratives, his view of philosophy, and his role in emerging views about ecology. With its chronology and guide to further reading, this lively and accessible Companion is an invaluable guide for students and scholars of Shelley and of Romanticism.

Known from her day to ours as 'the Author of Frankenstein', Mary Shelley indeed created one of the central myths of modernity. But she went on to survive all manner of upheaval - personal, political, and professional - and to produce an oeuvre of bracing intelligence and wide cultural sweep. The Cambridge Companion to Mary Shelley helps readers to assess for themselves her remarkable body of work. In clear, accessible essays, a distinguished group of scholars place Shelley's works in several historical and aesthetic contexts: literary history, the legacies of her parents William Godwin and Mary Wollstonecraft, and of course the life and afterlife, in cinema, robotics and hypertext, of Frankenstein. Other topics covered include Mary Shelley as a biographer and cultural critic, as the first editor of Percy Shelley's works, and as travel writer. This invaluable volume is complemented by a chronology, a guide to further reading and a select filmography.

Sixteen original essays by leading scholars on Mary Shelley's novel provide an introduction to Frankenstein and its various critical contexts.

Collects essays, based on the works of William Blake, that reflect upon such recurrent themes as art, religion, and politics.

More than any other period of British literature, Romanticism is strongly identified with a single genre. Romantic poetry has been one of the most enduring, best loved, most widely read and most frequently studied genres for two centuries and remains no less so today. This Companion offers a comprehensive overview and interpretation of the poetry of the period in its literary and historical contexts. The essays consider its metrical, formal, and linguistic features; its relation to history; its influence on other genres; its reflections of empire and nationalism, both within and outside the British Isles; and the various implications of oral transmission and the rapid expansion of print culture and mass readership. Attention is given to the work of less well-known or recently rediscovered authors, alongside the achievements of some of the greatest poets in the English language: Wordsworth, Coleridge, Blake, Scott, Burns, Keats, Shelley, Byron and Clare.

This 2004 volume offers an introduction to British literature that challenges the traditional divide between eighteenth-century and Romantic studies. Contributors explore the development of literary genres and modes through a period of rapid change. They show how literature was shaped by historical factors including the development of the book trade, the rise of literary criticism and the expansion of commercial society and empire. The first part of the volume focuses on broad themes including taste and aesthetics, national identity and empire, and key cultural trends such as sensibility and the gothic. The second part pays close attention to the work of individual writers including Sterne, Blake, Barbauld and Austen, and to the role of literary schools such as the Lake and Cockney schools. The wide scope of the collection, juxtaposing canonical authors with those now gaining new attention from scholars, makes it essential reading for students of eighteenth-century literature and Romanticism.

This book provides a new map of American literature in the global era, analyzing the multiple meanings of transnationalism.

Accessible enough to interest new students as well as specialists, these essays examine Twain from a wide variety of critical perspectives. They include timely reflections by major critics on the hotly debated dynamics of race and slavery perceptible throughout his writing.

Key dimensions of Dostoevskii's writing and life are explored in this collection of specially commissioned essays. While remaining accessible to an undergraduate and non-specialist readership, the essays as a whole seek to renegotiate the terms in which Dostoevskii and his works are to be approached. This is achieved by replacing the conventional 'life and works' format by one that seeks instead to foreground key aspects of the cultural context in which those works were produced. Contributors trace the often complex relationship between those aspects and the processes accompanying the creation of Dostoevskii's art. They examine topics such as Dostoevskii's relation to folk literature, money, religion, the family and science. The essays are well supported by supplementary material including a chronology of the period and detailed guides to further reading. Altogether the volume provides an invaluable resource for scholars and students.
