"Every little thing you do to take care of our Earth makes a difference!" Beloved author/illustrator team Marc and Laurie Krasny Brown tackle the important, timely subject of environmental protection and preservation in this classic Dino Tales: Life Guides for Families picture book, now reissued with a new title and fresh cover design. Kids will learn easy, practical ways to give back to the earth from these friendly, familiar dinosaur characters, including how to conserve natural resources, find new uses for old things, the ins-and-outs of recycling, tips for planting a tree, and much more. Originally published as Dinosaurs to the Rescue! in 1994, this eco-friendly picture book is now printed on recycled paper with nontoxic soy inks.

Frightened, lonely, and angry after her father is killed in a car accident, Clare is helped through the grieving process by her mother and grandfather.

When the death of a relative, a friend, or a pet happens or is about to happen . . . how can we help a child to understand? Lifetimes is a moving book for children of all ages, even parents too. It lets us explain life and death in a sensitive, caring, beautiful way. Lifetimes tells us about beginnings. And about endings. And about living in between. With large, wonderful illustrations, it tells about plants. About animals. About people. It tells that dying is as much a part of living as being born. It helps us to remember. It helps us to understand. Lifetimes . . . a very special, very important book for you and your child. The book that explains-beautifully-that all living things have their own special Lifetimes.

A fully updated and expanded new edition of the acclaimed, bestselling dinosaur field guide The bestselling Princeton Field Guide to Dinosaurs remains the must-have book for anyone who loves dinosaurs, from amateur enthusiasts to professional paleontologists. Now extensively revised and expanded, this dazzlingly illustrated large-format edition features some 100 new dinosaur species and 200 new and updated illustrations, bringing readers up to the minute on the latest discoveries and research that are radically transforming what we know about dinosaurs and their world. Written and illustrated by acclaimed dinosaur expert Gregory Paul, this stunningly beautiful book includes detailed species accounts of all the major dinosaur groups as well as nearly 700 color and black-and-white images—skeletal drawings, "life" studies, scenic views, and other illustrations that depict the full range of dinosaurs, from small feathered creatures to whale-sized supersauropods. Paul's extensively revised introduction delves into dinosaur history and biology, the extinction of nonavian dinosaurs, the origin of birds, and the history of dinosaur paleontology, as well as giving a taste of what it might be like to travel back in time to the era when dinosaurs roamed the earth. Now extensively revised and expanded Covers nearly 750 dinosaur species, including scores of newly discovered ones Provides startling new perspectives on the famed Brontosaurus and Tyrannosaurus Features nearly 700 color and black-and-white drawings and figures, including life studies, scenic views, and skull and muscle drawings Includes color paleo-distribution maps and a color time line Describes anatomy, physiology, locomotion, reproduction, and growth of dinosaurs, as well as the origin of birds and the extinction of nonavian dinosaurs

For use in schools and libraries only. Offers practical travel tips and encourages young travelers to participate in every stage of a trip--choosing a destination, packing, getting there, enjoying the sites, and finding ways to remember the experience.
