The Zenith Daytona Ref 16520 is a prime example of this. Rolex debuted the Cosmograph Daytona line back in 1963, with the Ref 6239. And for the next 25 years, these watches were all fitted with manual-winding movements. Also, from a third-party supplier.

Is The Zenith Daytona The Best Value Daytona Right Now ...

The Daytona's chronograph functions are activated by pushers that screw down like the winding crown when they are not in use, guaranteeing waterproofness to 100 metres. One press to start, stop or reset the chronograph produces a crisp, clear click that was perfected using the most advanced technology.

Rolex Cosmograph Daytona - Find your Rolex

The watch crown will then pull out to let you either wind it or set the time. When complete, you must apply gentle pressure to it and turn it clockwise until it screws back into the case to protect it from dust and water. The Daytona caseback is hermetically sealed and only an authorized Rolex service person will be able to open it.
