Preface: Together with my colleague Avroy A. Fanaroff (and more recently, Michele C. Walsh), we have been privileged to transform the third edition (1983) of this text into its 11th edition over a span of 35 years. This has been a great honor and an enormous learning experience. Over this time, although neonatal survival rates may give reason to rejoice, the persistent respiratory and neurodevelopmental problems observed in former preterm infants remain cause for concern.
