That's why we are the global market leader: a truly unique position. Lactose

Pharmaceutical grade lactose | DFE Pharma Lactose is also known as milk sugar. Lactose is a carbohydrate, and as such a disaccharide. One molecule of lactose is built from one molecule each of two other carbohydrates, galactos e and glucose. The galactose and glucose moieties are linked together through a so called beta-(1,4) glucosidic linkage.

Pharmatose® and Lactochem® are DFE Pharma's brand names for pure white and highly consistent crystalline, milled to varying degrees of particle sizes allowing pharmaceutical companies to choose the grade best fitting their formulation needs.
